This site is not available in your country Season 11 of Modern Family returning to ABC in September. The final season of the comedy will feature everyone from the original cast, including all the children. Nolan Gould, Jesse Tyler Ferguson and other stars shared emotional messages about the show ending. Don't cry because it's over, smile because we still have one last season of Modern Family! The ABC comedy officially ended its 10-year run after season 11. Despite whispers that the show is about to close, we all have hope that it will last forever. Fortunately, there are still many episodes that we can look forward to in the coming months. While we can hardly stand the thought, here's what to know about the last season of Modern Family: When will the 'Modern Family' return? The eleventh installment of the family sitcom will premiere on Wednesday, September 25 at 9 .m ET. Which cast will return? According to Deadline, the original actors are all likely all back. The outlet claims that adult stars—Ed O'Neill, Julie Bowen, Ty Burrell, Jesse Tyler Ferguson, Eric Stonestreet, and Sofia Vergara—all signed new deals with the network in December. Details of the original child cast—Sarah Hyland, Ariel Winter, Nolan Gould, and Rico Rodriguez—have not been officially released, but The Hollywood Reporter noted that the update hinged on his return. The show's co-creator, Steve Levitan, also shared a photo of the cast on the first day of filming —and that included all the original stars (plus more recent addition Aubrey-Anderson Emmons). Ten years ago we took the first photo of the cast off the table #modernfamily first time we read, she wrote in a photo before and after the shoot. Today, the end of the story begins. As of now, it sounds like we can expect between 18 to 22 episodes in the last season. According to co-creator Christopher Lloyd, it sounds like there's still a lot more on the writer's mind for the Dunphy-Pritchett-Tucker clan. From an angle we creatively got excited about writing this season and changing the lives of the characters — some in significant ways — and it made us think, 'Wow, there's a lot to explore in this life. he told Entertainment Weekly. Highlighting Milo Ventimiglia and entirely located in the past, Vietnam has finally begun to fill in some gaps when it comes to Jack's military service, and his relationship with his brother Nicky. There are many processes, so here are six main things you might miss. This content is imported from You may be able to find the same content in other formats, or you may be able to find more information, on their website. NBC's Kevin contacted a man named Mr. Robinson last week, asking for information about Jack. Tonight, we meet young Don Robinson (Mo McRae), a soldier who served alongside Jack in Vietnam and shares a relationship with him with some kind-hearted rivalry. As soon as Don started talking about his post-Vietnam dream of playing major league baseball, you had to know something terrible was coming and we wasn't sure we'd ever recover from the sight of Jack handing Don his own severed leg.2. The wounded soldier Jack was holding at the season premiere wasn't Nicky.When Rebecca asked Jack about the war on their first date and he downplayed how awful it was by telling him he was just a mechanic, we caught a quick glimpse of a bloodied Jack holding someone in his arm.' Since the shots came just before he mentioned Nicky, many viewers assumed we glimpsed the scene of the brother's death. But this episode includes a full version of the moment, which sees Jack cradling Don after he loses his leg. It means we don't know at all how Nicky is going to die, or whether Jack will be there with her when she does, or even whether she's actually dead. If there's one thing we've taught us, it's to question everything!3. Don's the one who taught Jack how to breathe. One of the most touching recurring motifs throughout the show is Jack teaching Randall how to breathe through his panic attacks — remember the gut-slashing scene when Randall did the same for William in his dying moments? Not surprisingly, Jack didn't learn the technique from his own father. Instead, he learns from Don, who (despite having just lost a limb) takes a moment to comfort Jack as he is about to be medically evacuated. You're scared, Pearson, Don says to Jack, asking if he's ever tired of acting like he's not. I've been pretending my whole life, Jack admits. In response, Don puts a hand on the side of Jack's face and tells him to breathe, telling him sometimes we are so afraid that we are going to die, we forget to do the things that keep us alive. Jack obviously took this with him, and years later he taught it to his son. It's so emotional! NBC 4. Jack wasn't drafted, but voluntarily signed up to be with Nicky.Didn't see this coming! Jack has a medical exemption which means he avoids drafting (more on that in sededing), but Nicky's number comes up. Jack was always very protective of his younger brother—Nicky only half ironically referred to himself as Lois Lane to Jack's Superman—and soon came up with a plan Take Nicky to Canada to avoid going to war. But on the way, Nicky slipped out of their motel room in the middle of the night, leaving a note explaining she wouldn't run away from the snack. Now it's my turn to save the day, he wrote. But Nicky still needs to be rescued, at least as far as Jack's concerned. A letter arrived from from shows that he's not okay in Vietnam—he's been disciplined, and writes alarming phrases like I know I didn't get out of this place alive—and so Jack has to go and find him. I just need to be where he is, even if I can't get to him, he told his doctor. Even if I can't do anything for him, I just need to be there. He's my brother. It's my job to take care of him. 5. Jack had a long history of heart problems before his sudden death. As we all know well now, it wasn't a house fire that instantly killed Jack, but a heart attack caused by inhaling smoke. And as it turns out, there are warning signs. Jack has had an abnormally rapid heart rate since his childhood, and it was severe enough to free him from the wamiil. Jack downplayed the condition as harmless when he decided to sign up, but his doctor was clearly worried. 6. Jack's father wasn't always a monster. NBC This is a pleasant surprise, because Stanley Pearson has been a pretty one-note villain in most shows. On the one hand, this episode offers more painful details about how rude he is to his wife and children, making it clear that his violence is a big part of why Jack is so protective of Nicky. There is also a brutal scene in which Marilyn, Jack and Nicky's mother, greet the postman with a very visible bruise above his eyes. She wasn't always like this, Marilyn told her sons, after they both intervened to physically protect her from Stanley. And that's right. In a flashback to the day Nicky was born, Stanley is sweet and supportive, offering free advice to Jack in the waiting room. Stanley's own father's appearance, flask in hand, does hint at some of his demons — still, you have to wonder what's going on on earth over the next two decades to turn him into a horrible person. I think we should wait to find out! This content is created and maintained by third parties, and imported onto this page to help users provide their email addresses.
